LATREIL WIMBERLY

Cybersecurity & Networking | IT Support | System Administration | Project Management

📞 +12404321694 @ latreil.wimberly@gmail.com 📍 Hyattsville

EXPERIENCE

SAMI Solutions Consultant
Adobe

📅 05/2025 - 08/2025 📍 McLean, VA

- Conducted business and technology discovery sessions to align IT security recommendations with client needs.
- Researched emerging technologies and created reusable documentation to support secure solution delivery.
- Collaborated on technical presentations highlighting cybersecurity and risk management solutions.

IT Assistant
Prince George's County Public Schools

📅 01/2025 - Present 📍 Springdale, MD

- Implemented and maintained security protocols, managing accounts, permissions, and access controls.
- Supported hardware, software, and networking operations across multiple departments, reducing downtime.
- Assisted with workstation, printer, and network device upgrades, ensuring compliance with IT policies.
- Responded to student and staff login issues, strengthening system security and user support.

DOE Scholar
United States Department of Energy

📅 06/2024 - 08/2024 📍 Washington, DC

- Designed and presented a prototype app with secure communication tools and real-time updates.
- Supported workforce analysis through data collection, risk assessment, and Excel-based reporting.
- Researched and developed best practices for talent development and organizational cybersecurity awareness.

Application Support Analyst
LT Innovations

📅 2024 - Present 📍 Washington, DC

- Troubleshot application security issues and supported updates to maintain system integrity.
- Optimized troubleshooting processes, reducing downtime and boosting overall service reliability.
- Coordinated with team members to enforce consistent system administration practices.

IT Support Specialist
Slippery Rock University of Pennsylvania

📅 03/2024 - 06/2024 📍 Slippery Rock, PA

- Resolved 150+ monthly tickets, including network security and connectivity issues for 200+ users.
- Supported end-user cybersecurity awareness, troubleshooting login and credential-based issues.
- Delivered consistent system administration support, improving IT resilience and reliability.

SUMMARY

Detail oriented IT professional with proven experience in cybersecurity, networking, and technical support. Skilled in safeguarding systems, managing access controls, and troubleshooting hardware/software issues. Holds CompTIA Security+ certification and hands-on experience in system administration, project management, and network device maintenance. Adept at implementing security protocols, reducing vulnerabilities, and supporting organizational compliance with IT policies.

TECHNICAL SKILLS

Security & Networking: CompTIA Security+, Cisco Networking, Access Controls, System Hardening

Systems/Platforms: Linux, AWS, Windows, Active Directory

Programming/Tools: Python, C/C++, Java, HTML

Core Skills: Cybersecurity Fundamentals, Network Administration, Technical Troubleshooting, Risk Mitigation, Incident Response

PROJECTS

∞ **FICO Analytic Challenge (sponsored by FICO)**
August 2025-December 2025

Built predictive models for credit risk using advanced data analysis.

∞ **FICO Summer Research (funded by Google)**
June 2025-August 2025

Conducted applied research on secure data analysis solutions; presented findings to industry mentors

∞ **HBCU Making and Innovation Challenge**
January 2025-September 2025

Designed secure prototypes to address real-world problems, competing in national innovation challenge.

EDUCATION

Bachelor of Science in Computer Technology
Bowie State University (BSU)

📍 Bowie, MD

- Graduation: December 2025
- B.S, Bachelor of Science in Computer Technology
- Honors College-GPA 4.0
