## Lab 7: Data Partition

- Open Disk Management to create another data partition.
- Right click the unallocated space and select new

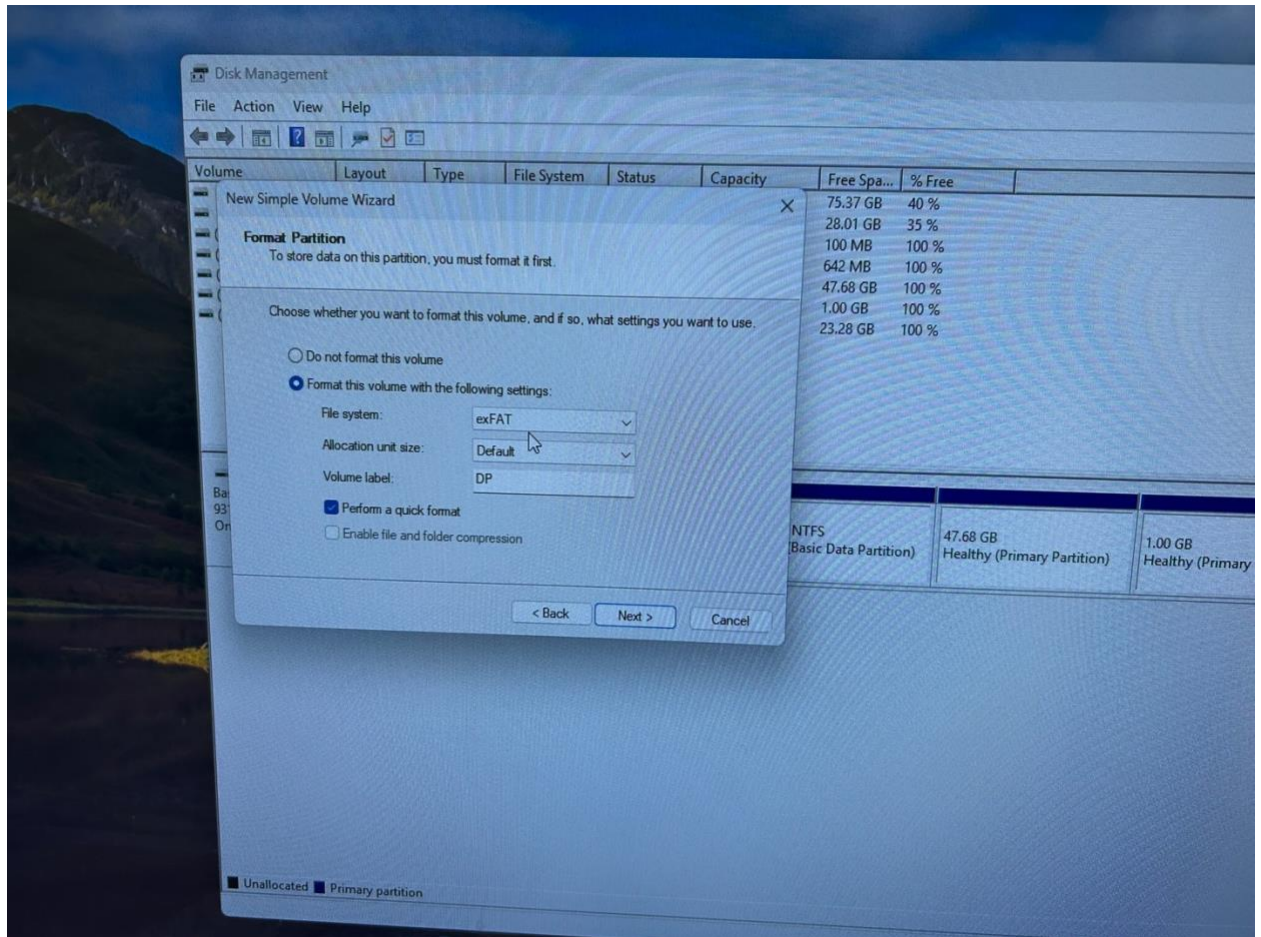

- Follow “New Simple Volume Wizard”
- Type in the amount of MB stored in the data partition.

- Select a letter drive

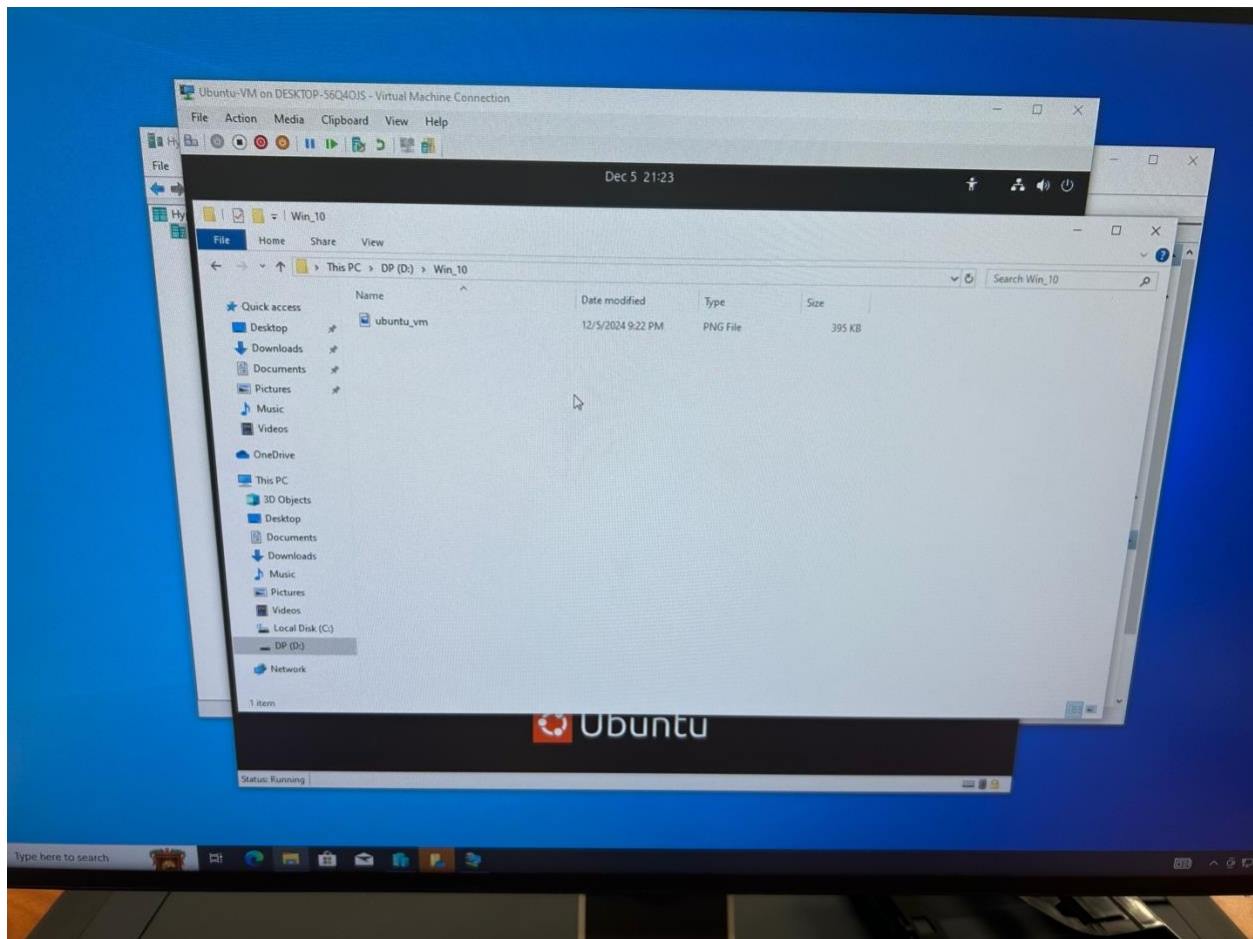

- Select “exFAT” file system so that all operating systems can read and write to the partition
- Name the partition in the “volume label” section
- Click next

| Free Spa... | % Free |  |  |  |  |
